

RAMKUMAR

Python Developer

📞 9952726267 @ kumarrameg@hotmail.com 📍 Chennai, IN

SUMMARY

Senior Software Engineer (Python Developer) with 4 years of experience to contribute to a forward-thinking organization. Seeking a challenging role where I can utilize my skills in backend development, data manipulation, business logic and implementation to create innovative and efficient applications.

EXPERIENCE

Rentokil PCI Pvt Ltd

Sr. Software Engineer(Python Developer)

📅 07/2021 📍 Chennai, IN

- Contributed significantly to the development of the Ecollection portal, which allows daily verification of collections through uploaded bank statements.
- Utilized python, Django, Django Rest Framework, Pandas, and Openpyxl for data handling, manipulation, and Excel file generation.
- Created features to upload Excel data, perform data validation, and generate reports in CSV format for easy data analysis.
- Developed and implemented the Electronic Treatment Instruction (ETI) web application, streamlining the proposal creation process for customers.
- Designed the database model and developed the ORM for efficient data storage and retrieval.
- Implemented dynamic UI components.
- Integrated complex business logic, including calculations for gross margin based on product selection.
- Collaborated with the team to implement an approval workflow, considering financial criteria like gross margin and CAV.
- Improved the application's performance and user experience through UI optimization and bug fixing.

Galaxy Weblinks Inc

Associate Software Engineer 📅 06/2019 - 07/2021 📍 Madurai

- Contributed to the development of the Rocket Booster VPN project, focusing on the creation of a dynamic and user- friendly dashboard.
- Integrated APIs and backend functionalities for real-time data updates and user management.
- Leveraged Django, Django Rest Framework, and JavaScript to build interactive features and data visualizations.
- Collaborated closely with the design team to create a visually appealing and seamless dashboard interface.
